Borgo de' Medici

Borgo de' Medici is a family-run company dedicated to producing a series of food specialties made in Tuscany and to promoting these gems, by distributing them with own trademark, in Italy and throughout the world. Our philosophy can be summed up in two simple words

“Living Tuscany”

For Borgo de' Medici, Tuscany has always been the starting point. All our raw materials, and culinary techniques originate within this territory, an area that has always supported history and traditions linked to the creation and exchange of handcrafted products. Our products represent a unique heritage that spotlights quality and variety. They are the result of an extraordinarily high level of handcrafted expertise which is quite difficult to achieve. Thus, these products are truly representative of a distinct territorial and historical identity.

Great to eat and interesting to think about.

BORGO de' MEDICI

We Defend and Promote the Tuscan Gastronomic Heritage

Borgo de' Medici (Translation: Village of the Medici Family) - The Story...

The Medici family ruled the city of Florence in the region of Tuscany from 1433 until 1756. Every time a Tuscan village or town was conquered by the Florentine Army, a stone stamp marker with the Medici House symbol was put in evidence on the wall of the town or on the city hall building and the village became officially a "Borgo de' Medici".

The Medici family had a major influence on the growth of the Italian Renaissance through their patronage and support of the arts, the humanities and the development of modern Italian cuisine. To honor this historic heritage, in 1999 Massimo Pugi and his family founded *Borgo de' Medici Delizie Toscane* in Prato (Tuscany). Working with some of the best artisans, farmers and beekeepers of the region, he developed a complete line of authentic Tuscan fine food creating an ideal village (Borgo) of specialty foods (the biscotti from the bakery, the extra virgin olive oil from the olive mill, the fruit preserve from the kitchen with copper pots...)

Over the past 18 years, *Borgo de' Medici* has grown and developed into a multi-national company, with products now available in fine specialty stores in more than 30 countries. All of the products come from farms and workshops located in zones of specialization, and are owned by or associated with *Borgo de' Medici*. And now, we bring to you *Borgo de' Medici USA Inc.*, a 100% family owned subsidiary created to import and directly distribute the *Borgo de' Medici* line to specialty stores in the USA just as it is distributed in the Old World...

Our mission is to become the leading purveyor of Tuscan fine food in the world, respected for the outstanding quality of our products, their presentation and authenticity. We are committed to educating, inspiring and communicating the quality, the originality, the values and the lifestyle of *Borgo de' Medici* and the Tuscan countryside.

We are committed to creating authentic specialties:

AS NATURE INTENDED

They are created without the use of preservatives or artificial colors and flavors, NON GMO'S - EVER!

TYPICALLY TUSCAN

They are produced in Tuscany according to traditional production methods.

SUPERIOR QUALITY

We use genuine carefully selected ingredients that originate in a circumscribed geographic area.

ORIGINAL

Many Borgo de' Medici products can only be found in Tuscany.

HANDCRAFTED

The production of our specialties is rigorously handcrafted without the use of industrial processes. Even packaging is carried out by hand; both of these factors limit our products when it comes to quantity, but gives them an inarguably high level of quality.

Organic Typical Italian Pasta

Croxetti Liguri Pasta

The name itself derives from a XIVth century Genoan coin, the corzetto. These are small, thin rounds of pasta that are given an embossed decoration using a special wooden hand-tool. Delicious with Pesto alla Genovese, blanched green beans and sliced potato as tradition dictates, this versatile pasta is also the base for many Liguria's most famous dishes: with our Gourmet Pesto, Porcini Mushrooms Pausta Sauce, Pistachio Pesto with Basil, or Tomato and Basil.

Pici Senesi Pasta

They are nested thick and rough spaghetti. They originate in the province of Siena in Tuscany. The dough is typically made from flour and water only. Excellent with our Truffle delicacies or with meat pasta sauces, like our Amatriciana or Ragù tradizionale or with a particular Chianti Style tomato sauce surprising your dinner guests!

Gnocchetti Sardi Pasta

Said also Maloreddus in Sardinian language. They are a typical pasta of Sardinian cuisine. The shape is a long-striped shell about 1 inch long, made of semolina flour and water. You can prepare with various sauces like Tomato pasta sauces, Meat Pasta Sauces, as well as, our Pesto Siciliano with ricotta Cheese & Walnuts or with our Red Pesto.

ITALIAN RICES

Gluten free - All Natural Ingredients - Only Italian rices

Which Italian risotto rice is best?

There are three varieties best for making risotto: Carnaroli, Vialone Nano and Venere Black.

New

CARNAROLI
RICE
~ AS01680 ~
1.10 lb (500g)

Carnaroli is the rice preferred by most Italian cooks, has a wonderful absorption, releases enough starch to make the risotto creamy and not sticky, while the grains still remain firm - "al dente".

New

VENERE BLACK
RICE
~ AS01682 ~
1.10 lb (500g)

Venere black rice is very rich in minerals and vitamins, is suitable for seafood risotto or summer preparations.

New

VIALONE NANO
RICE
~ AS01681 ~
1.10 lb (500g)

Vialone nano has a shorter grain, a good absorption when cooked, and is another rice with low stickiness or starch. This is preferred in the north-east Italy (Veneto) for traditional recipes that require a looser risotto with a firm grain.

0.88 oz (25 g)

OREGANO

This aromatic plant grows spontaneously on the mountains 1000 metres above sea level, in an uncontaminated area benefiting from both the altitude and the sea breeze.

The cultivation is carried out rigorously with biological methods, all stages of processing are carried out by hand without resorting to irrigations, pesticides and fertilizers but only to sun, high mountain air and an uncontaminated soil.

ITALIAN HONEY

*Borgio de' Medici Classics**Pure Honey harvested in Tuscany*

Our pure honey is produced by artisanal beekeepers spread throughout Tuscany's most untouched countryside before being processed by us. The honey comes primarily from the area's mountains and hillsides, but a portion comes from the coastal and beach regions as well. All of our honey is characterized by a naturalness that can only come from untouched land and the floral and fruit-bearing plants so plentiful in our region.
