# Borgo de' Medici

Borgo de' Medici is a family-run company dedicated to producing a series of food specialties made in Tuscany and to promoting these gems, by distributing them with own trademark, in Italy and throughout the world. Our philosophy can be summed up in two simple words

“Living Tuscany”

*For Borgo de' Medici, Tuscany has always been the starting point. All our raw materials, and culinary techniques originate within this territory, an area that has always supported history and traditions linked to the creation and exchange of handcrafted products. Our products represent a unique heritage that spotlights quality and variety. They are the result of an extraordinarily high level of handcrafted expertise which is quite difficult to achieve. Thus, these products are truly representative of a distinct territorial and historical identity.*

*Great to eat and interesting to think about.*

## We Defend and Promote the Tuscan Gastronomic Heritage

Borgo de' Medici (Translation: Village of the Medici Family) The Story...

The Medici family ruled the city of Florence in the region of Tuscany from 1433 until 1756. Every time a Tuscan village or town was conquered by the Florentine Army, a stone stamp marker with the Medici House symbol was put in evidence on the wall of the town or on the city hall building and the village became officially a “Borgo de' Medici”.

The Medici family had a major influence on the growth of the Italian Renaissance through their patronage and support of the arts, the humanities and the development of modern Italian cuisine. To honor this historic heritage, in 1999 Massimo Pugi and his family founded Borgo de' Medici

Delizie Toscane in Prato (Tuscany). Working with some of the best artisans, farmers and beekeepers of the region, he developed a complete line of authentic Tuscan fine food creating an ideal village (Borgo) of specialty foods (the biscotti from the bakery, the extra virgin olive oil from the olive mill, the fruit preserve from the kitchen with copper pots...)

Over the past 18 years, Borgo de' Medici has grown and developed into a multi-national company, with products now available in fine specialty stores in more than 30 countries. All of the products come from farms and workshops located in zones of specialization, and are owned by or associated with Borgo de' Medici. And now, we bring to you Borgo de' Medici USA Inc., a 100% family owned subsidiary created to import and

directly distribute the Borgo de' Medici line to specialty stores in the USA just as it is distributed in the Old World...

Our mission is to become the leading purveyor of Tuscan fine food in the world, respected for the outstanding quality of our products, their presentation and authenticity. We are committed to educating, inspiring and communicating the quality, the originality, the values and the lifestyle of Borgo de' Medici and the Tuscan countryside.

~ AS02796 ~  
1lb 1.6 oz (500g)  
12 units/case

**Organic Typical Italian Pasta****Trofie Liguri Pasta**

Trofie are a type of pasta typical of Ligurian cuisine, with an elongated and thin shape, believed to originate from Sori, in the province of Genova. It should be noted that in the Ligurian language the term trofie indicates "gnocchi" and trofetta indicates a "gnocchetto", a dough made from flour and potatoes, of substantially different shape and texture on the palate.

**Pici Senesi Pasta**

They are nested thick and rough spaghetti. They originate in the province of Siena in Tuscany. The dough is typically made from flour and water only. Excellent with our Truffle delicacies or with meat pasta sauces, like our Amatriciana or Ragù tradizionale or with a particular Chianti Style tomato sauce surprising your dinner guests!

**Gnocchetti Sardi Pasta**

Said also Maloreddus in Sardinian language. They are a typical pasta of Sardinian cuisine. The shape is a long-striped shell about 1 inch long, made of semolina flour and water. You can prepare with various sauces like Tomato pasta sauces, Meat Pasta Sauces, as well as, our Pesto Siciliano with ricotta Cheese & Walnuts or with our Red Pesto.

**Foglie d'Ulivo - Orecchiette pugliesi**

The olive leaves are a tasty form of fresh homemade pasta typical of Puglia. A basic dough with leaf-shaped spinach, perfect to be served with meat sauce, but also with cream and speck, tomato sauce or according to your own tastes and imagination.

Orecchiette are a type of fresh pasta typical of the Puglia region, made with re-milled durum wheat flour, water and salt; whose round and convex shape is similar to that of small ears, hence their name! With a rough surface, a thin interior and a thicker edge, they are perfect for accommodating the most varied condiments

**ITALIAN MEAT PASTA SAUCES**

ITALIAN HONEY

Borgo de' Medici Classics

Pure Honey harvested in Tuscany

Our pure honey is produced by artisanal beekeepers spread throughout Tuscany's most untouched countryside before being processed by us. The honey comes primarily from the area's mountains and hillsides, but a portion comes from the coastal and beach regions as well. All of our honey is characterized by a naturalness that can only come from untouched land and the floral and fruit-bearing plants so plentiful in our region.
